SATURDAY, MAY 31.

"How is the earth divided?" asked a pompous examiner, who had already worn out the patience of the class.
"By earthquakes," replied one boy, after which the examiner found that he had had enough of that class.

Ontario

Elections

By a Very Slim Majority.

Conservatives Gain Many Seats and the Result is Very Close.

Exact Numbers of Each Side In the House Not Yet Known.

Toronto, May 29.-With returns from complete, and one constituency, Manigovernment has been apparently sustainnight's figures show 50 Liberals returned, including all the ministers, and 45 Con

elections is: Liberals, 51; Conservatives. 46, with Manitoulin to hear from; while the Toronto Mail and Empire's summary s: Liberals, 50; Conservatives, 47 with Manitoulin to hear from.

In the last House, with 94 members, be Conservatives had only 41, and Libpow the Conservatives have in any case

materially reduced the government majority.

Prominent Libera's defeated are: Liberal whip McKeon of North Essex; Carpenter in "North Norfolk, and Dr. McKay of South Oxford. The result in South Oxford was a surprise to the Liberals, it being the first time since confederation that it has elected a Conservative. No leading Conservatives were defeated. Among the new figures who will be seen in the House will be two former Conservative members. Dr. Willoughby, of East Northumberland and St. John of West York. Mayor Hendric, of Hamilton, will doubtless take a prominent place among the opposition. Addington, Reid (Cons.)

ACCIDENT AT ROSSLAND. Six Men Injured by Dropping of the Cago

Six Men Injured by Dropping of the Cage

Rossland. May 29.—The hoisting engineer at the Nickel Plate mine allowed the cage to run away this afternoon just as the crew was coming off shift. Seven men were on the cage, and all but one were injured. The men were at the 600-foot level and dropped from there to the S00-foot level. James Peardon, James Williamson and R. M. Croft are badly hurt, and may not survive. J. Gould had his left arm broken, while Napoleon F. Amora and Frank Andre received internal injuries, and Stanley Sibley was quite unhurt and was able to walk away after the accident. The injured men were taken to the Sisters hospital, the grim procession of conveyances causing much excitement as it wound through the city.

Large Shareholder in New Vancouver Coal Company Dead.

Nanaimo, B. C., May 29.—(Special.)—
Flags were floated at half-mast on the works of the New Vancouver Coal Co. and clsewhere in the city today, out of respect to the memory of John Rosenfelds, who died at New York on his way from Europe. He was a large shareholder in the New Vancouver Coal Co., and for many years his house has been San & rancisco agent for this company's coal. Many times he has visited this city on business, and was a personal friend of Superintendent Robins.

MODERN WARFARE.

Emperor William Gives His Views or Machine Guns.

Berlin, May 29.—Emperor William made a speech after the sham fights conducted May 24 by German forces at Gravelotte, Alsace-Lorraine, in which the German defences in certain battles of the Franco-German war were repeated. His Majesty is reported to have said in his speech that in the next war 4,000 men with machine guns would be able in similar positions to stand off 80,000 men, and that at Gravelotte 4,000 men so armed would have put 20,000 men out of action.

THE BOER DELEGATES.

ombine Pleasure With Business at the Conference.

Conference.

Pretoria, May 29.—The camp at Vereeniging, Transvaal, where the final decision in regard to peace will be reached, has been elaborately prepared by the British authorities, with a view to the comfort and convenience of the delegates to the convention now being held there. The camp has been laid out on a square, two miles from the Vereeniging station. On the Transvaal side of the Vaal river there are 60 bell tents and 20 marquees. A plentiful supply of water has been piped to the camp. Electric lights have been installed, and a staff of British medical officers is employed there. Generous cooking and extering arrangements have also been made. The delegates are amusing themselves with varieties are amusing themselves with varieties.

The Number Of Victims Wor

A Hundred and Line Bodies Recovered From the Mine at Fernie.

And It Is Believed That Thirty are Still in the Workings.

From Our Own Correspondent.

Fernie, May 29 .- The total number of odies recovered to date from the mine is 109, and it is estimated that there are still 30 bodies in the mine. Those reovered since last report are:

covered since last report are:

Alexander Featherstone, George Beaver, John Stewart, Ed. Faley, Steve Blayte, Lucien Silla, Tony Angelo, Antony Camorro, Joseph Mataga, Ignace Mataluk, Girado Silla, John Shingara, Mike Leear, Thomas Kruppe, John Gabriel, Geo. Barbey, Phil. Tabbe, Larkin Armsted, Dougal Mulroy, James Muir, Joseph Crimp, Malcolm McLeod, Aaron Colcleugh and one unknown from room S.

8. Funerals were in progress all this afternoon and evening. The last recovered bodies were very much mutilated. The inquest will be resumed tomorrow, Mr. Ross appearing for the local union, S. S. Taylor, K. C., being retained by the Western Federation of Miners, and W. A. Macdonald, of Nelson (with Herchmer), representing the company, and J. A. Harvey, of Fort Steele, the provincial government.

TRAIN SMASH.

Serious Accident on the Burlington Railway.

Alma, Wis., May 29.—One man killed Alma, W18., May 29.—One man killed and four others seriously injured, some probably fatally, is the result of a disastrous wreck on the Burlington road at Alma this afternoon. A gravel train on which were six officials of the road, including Supt. Cunningham, was going on a switch, when another gravel train coming from the North crashed into it with fearful results.

SIR ROBERT BOND.

Newfoundland Premier Going to the Coronation.

St. John's, Nild., May 29.—The premier of Newfoundland, Sir Robert Bond, left here this evening via Quebec for London, where he will participate in the functions attendant upon the coronation of the King. Sir Robert is one of the premiers of the six self-governing colonies who have been invited to London as special guests for this occasion. Owing to the Imperial conferences which are to follow the coronation festivities, the Premier expects to be absent about three months.

MEAT RIOTS.

Frouble in Chicago Streets Owing to Teamsters' Strike.

Chicago, May 29.—Prospects of a pre-cipitated rise in the price of ment and a fight to a finish between the Packers and the Teamsters' union. No. 10, developed at the Union Stock Yards today, as the

Steamer Cassiar Reports Serious Timber Fires Along B. C. Coast.

Sakaghi is Found Guilty at Vancouver Assize of Stabbing Take.

Terminal City Will Hold the Usual Celebration on Dominion Day.

Vancouver, B. C., May 29.—Steamer fires along the British Columbia coast. They saw the fires making much head-way, and fear that several lumber camps will be burnt out.

W. Merridith, C. E., is here to take charge of the construction of the Vancouver Power company, who are to com-mence at once on the big undertaking, which involves the driving of a tunnel through a mountain of rock for two miles to join lakes Beautiful and Co-

At the assizes today, Rex vs. Sakachi came up for trial. The evidence of the Crown went to show that the prisoner, when drunk, went into the house of a man named Take, at Port Essington.
Words ensued, and Take attempting to

Mords ensued, and Take attempting to put the prisoner out, was stabbed by Sakaghi. The defence that the man Take attempted to gonge out his eye, and he stabbed in an attempt to get away. The pury returned a verduct of stabbing with intent. Judgment was reserved.

The onee of Rex. vs. Gallespie took up all the atternoon. The evidence is all in, and counsel will address the jury at 10:30 tomorrow morning. Gillespie is accused of forging the name of Graves, provincing manager of the Woodmen of the World, in an attempt to get an insurance risk for that order. Gallespie was working for the order securing risks. The book of rules prohibited miners from becoming insured, and Gillespie is accused of writing a letter to a miner saying that he was eligible, and signing Graves name to it, besides tearing a leaf out of the book of rules, where the statement was made that miners were not eligible, and presenting this book in its mutilated form to the miner. The defence claim that Graves instructed the defendant to write the letter with his name to it, or at least he knew of it being done, and did not object, and also

defendant to write the letter with his name to it, or at least he knew of it being done, and did not object, and also instructed Gillespie to tear the leaf out of the book of rules.

The members of the Vancouver club are giving a ball on Dominton Day.

At a mass meeting last night it was decided to hold a big celebration as usual on July 1 and 2. The Mayor and Aldermen, and 10 prominent citizens were chosen as a general committee.

The ladies ambulance committee have wound up their business affairs, which are in a very healthy state. They collected \$1,774.30 by a house to house canvass. They paid \$625 for the ambulance, and duty and other expenses aggregated \$961.30, leaving a cash balance in the bank of \$\$\$\$1.50.

CORONATION SPORTS.

London, May 29.—The programme for the Coronation tournament, in which boxers and wrestlers from different parts of the world, will compete, was finally agreed on today. The contest will be held at the National Sporting club, after-noon and evening, beginning with the afternoon of June 21.

SUBSIDIES FOR SHIPS.

Imperial Government Will Continue Them on New Conditions.

London, May 29—Speaking on the navy estimates today, Mr. Arnold-Forster said it was purposed to continue the use of subsidized merchant cruisers, subject to the question of the status, which some of these ships might acquire by virtue of a change in their ownership consequent on changes in register.

RED CROSS CONFERENCE.

International Meeting Opens at St. Petersburg.

St. Petersburg, May 29.—The seventh international Red Cross conference under the presidency of Gen. Richter, was officially opened by the minister of jusomerany opened by the minister of the tice, M. N. V. Mouravieft, today, in the presence of the Dowager Czarina, the Czarowitch, Grand Duke Michael and many other notabilities. A hundred delegates from various countries were presented.

GERMAN MANOEUVRES.

Shah of Persia and Crown Prince of Siam to Attend.

Berlin, May 29.—Special police precautions are being taken in connection with the annual spring parade of German troops to be held at the Temple of Field tomorrow, which will be witnessed by Emperor William, the Shah of Persa, and the Crown Prince of Slam. The precautionary measures are tharticularly aimed at photographers by whom His Majesty has recently been much annoyed.

ST. VINCENT.

Governor Believes the Worst is Now Over.

London, May 29.—Mr. Joseph Chamleriain, the colonial secretary, has received the following cablegram from Sir Robert Baxter Llewellyn, governor of Windward Islands, in the West Indies: "There have been no serious volcanic cruptions on the Island of St. Vincent since May 18. I hope the worst is over, but the people of the island are still nervous. All arrangements for the comfort of the injured, the relief of the destitute and the settling of the people of St. Vincent are progressing satisfactorily."

the Teamsters' union. No. 10, developed at the Union Stock Yards today, as the result of an ineffectual conference. Two smaller unions are already out. Swift & Co. have prepared to arrange sleeping quarters for the employees of their packing house and hundreds of cots have been taken into the yards.

The distribution of meat to local houses was attemded by great difficulty today owing to the attitude of the striking teamsters. No work was attempted without the presence of the police.

A non-union teamster, who made an attempt to deliver meat to the Palmer house, was severely beaten by three ment supposed to have been teamsters of ice wagons. The assailants escaped.

Irwin Bros. company, butchers, in removing three loads of meat from the cars to their shops, had policemen surround the wagons and proceed with them over the tracks. A big crowd followed, teering and throwing missiles. Licut. Cudmore's hat was smashed.

Volcano.

Port De France, Martinique, May 28.

—Prof. Robt. T. Hill, U. S. government geologist and head of the expedition sent to Martinique by the National Georaphical society, who left Port De France Monday on horseback for the volcano, returned here this morning. He was completely worn out by his trip. Prof. Hill recites an interesting story of his examination of the district, through which he passed. He left Port De France at 1 o'clock Monday afternoon. He was accompanied by a Mr. Cavannagh, a British army officer, from Trinidad, and a boy named Joe, who was to act as interpreter.

The party set out on horseback, and took the direct north route for Morne Rouge. Between the hamlets of Deux Choux and Fond St. Denis, the party entered upon the outer edge of the zone of ashes. Except for occasional patches, all the country to this point was green and smiling. Upon reaching the Raibaind plantation, one mile southwest of St. Hierre, the explorers met the clear line of demarcation of the zone of flames and destruction, although not of annihilation.

Monday was spent in a deserted house

The second secon

Observations Made by Scientist of the Extensive Binding Programme to crease Number of Vessels.

London, May 20.—In a discussion of the navy estimates in the House of Commons today, the Secretary of the Admiralty, Mr. Arnold Foster, refule Sir Charles-Dilke's suggestion that the government's ship building programme livas so small as to create a bad impression abroad. The secretary said that during the past year 35 ships had been completed, 75 vessels were now under construction, including 20 armored cruisers, and the admiralty contemplated immediately proceeding with upwards of 27 other ships. The vote for the construction of vessels alone, he said, would during the present year amount to £9,000,000.

STRANGE STORY OF SMUGGLERS

Benjamin Ure Accused of Harboring Pirates and Water

Accused of harboring murderers, smuggiers and pirates on his lonely island at the entrance of Deception cass, white-haired Benjamin Ure, once Skagit county's richest man, is now under attest, says the Seattle Post-Intelligencer. Formany he is charged with receiving stolen property. He was arrested has week by Sherni Weedin, of Island county. By several of Skagit county's most prominent citizens, for he is a pioneer and well known to the older settlers, he was bonded out on Monday. The story sounds like the more grapaic chapters of a romantic novel.

story sounds like the more graphic chapters of a romantic novel.

The story deals with desperate men; with their mysterious comings and goings in the darkness; with radab by night with the little dun-gray sloops which slip into the quiet cove among the rocks to emerge again repainted in other colors; with signal lights in the darkness seen by chance from sleeping villages; with mutfled oars silently slipping into the water; it tells of wild caronsals when stolen whiskey is landed on the rocky island; of smuggled opium hidden behind logs in the woodland, close to the quiet wheat fields of Whidby island. It is a strange story.

rocky island; of smuggied optum inducin behind logs in the woodland, close to the quiet wheat fields of Whidby island. It is a strange story.

Yet the officers maintain it is true, Sheriff Lather Weedin worked for months gathering its details. Prosecuting Attorney Lester Still, of Island county, maintains that what has been told is only the half.

Ure's island is a fit scene for such a tale. It is a bleak, spruce-grown bit of rock, almost at the east entrance of Deception Pass. The current rips by it like a mill race at half tide. At slack water it laps the rocks as smooth as oil. Sheltered from the west wind and the seas from the Straits, protected from the swirling currents as they eddy and rush from the mouth of the pass, it is an ideal haven for small craft.

Nothing grows on this island save the spruces and the brush beneath them. It is no spot for farming. To one who passes it on the water it looks like a wilderness. The jungle of underbrush hides the houses. To this bleak spot came Benjamin Ure, years ago, broken in fortune and spent in years, in early days these he had carried passengers about the upper Sound, when travel was slow and steam craft were few in these waters. Then he worked for a time in the customs service. He invested his money carefully. He became a man of means and influence. Then he bought real estate in Anneontes. The boom, which raised values so high in that these, burst. Ure's property became worthless. He never troubled to pay its taxes. He did not take a last look at his holdings. He left the place for his island.

Residence, Craigflower Road.

Peter Steele, proprietor of Steele's enloon on Bastion street, died last night
at his residence on Craigflower road.
The decensed had been aling for some
time and his demise has been expected
for some days. Peter Steele came to
Victoria in 1863, and engaged in the
saloon business, in which he continued
until the time of his death. His saloons
were always popular resorts with the
business men of the city, and in his
present premises he accumulated quite
a fortune, which he invested in realty
in the city. He came to Victoria from
Montreal, near which city he was born.
A widow and one son survive him.

The deceased was deservedly popular
among the old-timers of the city, none
of whom when inneed, had to ask twice
from him for assistance. The charitable
institutions of the city were also freomently benefited by his charity. The
funeral arrangements have not yet been
announced.

MULE CAMP MOVES.

Lathrop, Mont., May 29.—The British nule camp, which has been maintained here since May, 1901, during which time S,000 horses and myles for use in South Africa have been handled, is to be moved to Toronto, Ont., immediately. Nearly all the British officers stationed here have already left and the horses still here will be shipped to Toronto within a few days.

AMERICA'S CUP.

Prepared.

London, May 29.—William Fife and George L. Watson have collaborated on the plans for a new challenger for the America's cup, which will be built by the Dennys at Dumbarton, Scotland. Capt. Robert Wringe, who, with Capt. Hogarth, was on board the Shamrock I. in her series of races for the cup, will be in supreme command of the new yacht. All the plans are now completed, and arrangements have been made for closing the building contract. The new yacht will be constructed under the shed beneath which the Shamrock I. was built.

Difference of Opinion on Suspension Constitution,

Constitution.

Capetowu, May 29.—Serious differences have arisen in the cabinet on the question of the suspension of the constitution. Dr. J. W. Smart, the commissioner of public works, who is in favor of a temporary suspension of the constitution, has resigned his portfolio in order to lay his views before the governor of Cape Colony, Sir Waller F. Hely-Hutchinson, and his resignation has been accepted. Several other ministers oppose the suspension of the constitution. In an article representing Dr. Smart's point of view, the Cape Times contends that neither the leaders of the Afrikander Bund nor the Dutch ministers have lifted a finger to bring about peace, and that it would be dangerous to the interests of conciliation to restore a representative government. With contested elections and passionate debates fomenting continual antagonisms, says the Cape Times, the interests of both Cape Colony and the Empire demand a temporary sacrifice of parliamentary government.

could produce no sound from his beloved whistle.

The burgermeister could think of no remedy; nor could he punish the watchman. A council was called to deliberate, and the subject for discussion was haid before the meeting. At first profound silence reigned. Finally, one of the members of the council rose and said he had heard of the possibility of replacing human teeth by artificial ones; adding, that to the best of his belief there was a man in Breslau who undertook to do this. He said he could not vouch for the truth of what he had heard; but he really had been told that this was the case! A long discussion cusued, with the result that the watchman was told to go to Breslau to get a new set of feeth. In due course the cld man returned to the scene of his delief man returned to the scene of his delict and now set of feeth. In due course the cld man returned to the scene of his duties provided with the needful. The language forms and so will find relief. They never fail to do good.

It leaves the case! A long discussion was had been told that this was the case! A long discussion cusued, with the result that the watchman was told to go to Breslau to get a new set of feeth. In due course the cld man returned to the scene of his duties provided with the needful. The and you will find relief. They never fail to do good.

That tired, language feeling and dull head cache is very disagreeable. Take two of carter's Little Liver Pills before retiring and you will find relief. They never fail to do good.

Many Vessels at the Wharves Large Oriental Fleet Due Next Week.

Indravelli Bound Here—Glenogle Sailed For the Orient Yesterday.

Yesterday.

Yesterday saw quite a fleet of steamers along the wharves of the inner harbor. The R. P. Rithet and Yosemite were both in port, the former having brought a large consignment of oats for shipment to Dawson by the Amur toslight. The steamers Amur and Tees were loading cargo for Northern ports, steamer Queen City was in port from Cape Scott and way ports, and the fishing schooner Kilmeny was discharging her six tons of halibut taken off Cape Flattery, into the steamer R. P. Rithet, for shipment East. The steamer Majestic was discharging cargo at the E. K. N. wharf yesterday afternoon, and the Oriental liner Glenogle took on some freight and passengers at the Outer wharf before leaving for Yokohama.

The steamer Tees sailed last night for Nanas and way ports, carrying a good-sized cargo, the greater portion of which consisted of provisions and supplies for Northern canneries and way ports. There was not as much tin-plate and cannery supplies as usual, and canners are anxiously awaiting the arrival of the now due sailing ship Kate Thomas, which is out 161 days from Liverpool, and which is bringing a large amount of tin-plate and salt for the canners. The Tees took up a number of Chinese deck passengers, 52 in all, bound to two Northern canneries. The passenger list of the steamer included a number of missionaries, returning from the Vancouver conference, and several cannery men. The passengers from here were Rev, G. H. Raley and wife, of Kitamaat; A. Lindeborg, W. Lindeborg, R. Bennett, R. McDonald, Rev, C. C. Freeman, Miss Downey, Mrs. Todd, W. Drainey, Rev, W. F. Pierce, S. Wise, Rev. Mr. Jennings and wife, and Dr. T. A. Wilson. Steamer Amur, which leaves for Skagway tonight, will have a full cargo of freight, and an average number of passengers. She will have several large shipments of groceries and provisions, to-baccos, dry goods, etc., from local housen, and in fact a hold full of general merchandise for the miners and stores of the far North.

Steamer Cottage City will leave for Skagway tomorow mo

indise for the mines.

In North,
Steamer Cottage City will leave for agway tomorrow morning, and the amer Queen City will sail for Ahoutt, and way ports on Sunday night.

ON TRIANGLE ISLAND.

Deck House and Remains of a Man Found on Northern Island.

Found on Northern Island.

Some time ago the tug Eagle, of Vancouver, which as will be remembered tried vainly to land some prospectors on Triangle island last December, again visited the island, and the prospectors, who were looking for copper, found much wreckage along the rocks, including the deck house of a vessel, and the remains of a man. Triangle island is one of the Scott archipelago off the northwest of Vancouver Island, and is seldom visited. The report regarding the finding of the wreckage on Triangle island has been current for some time, but cannot be verified. The Eagle made the trip some time ago, how long is not known at present, but it was more than a month since, for the Eagle has been on a voyage North along the British Columbia coast with a party of timber efficient from Tacoma, who were accompanied by Mr. M. King, of this city, since she made her trip to Triangle island.

Triangle island and the other isless of the archipelago, are in the direct course of the currents which have thrown various wreckage on the Vancouver Island coast during the winter. If the coast was searched the wreckage would possibly be identified.

QUEEN CITY RETURNS.

amer Brings Large Number of Pas-

sengers From Coast Mines.

Steamer Queen City reached port yesterday morning from Cape Scott and way ports, bringing a large number of passengers, the majority being mining men. The list was as follows:

Mr. Rutherford, Mr. McQueen, G. Logan, W. Clark, E. R. Bennett, Mrs. Pearson, Mr. Griffith, Mr. Deekin, G. Bishop, Mrs. J. Holland, Mrs. Baird, Mrs. Pearse, C. W. Johnston, John Cobbert, Mr. Tyson, Capt. Seral, Dun Cassel, D. Chislam, Messrs, Thomson, Johnston, Goltz, McNeil, Keeling, Blakeley, Jones, Marshall, E. Dewdney and Brewer.

struction will aggregate 28,000 tons, including about 4,500,000 rivets and 40 miles of wire in the installation of their

day morning, bound to Ladysmith from Port Angeles to load coal for Port Los

Indravelli and Five Other

Sunken Steamer Islander.

Capt. Lynch, representing Surtes Hope, of Tacoma, who has a contract with the underwriters to raise the sunken steamer Islander, left for the North on Tuesday, in company with a small party to endeavor to locate the steamer, which sank on August 15 hast, after collision with an iceberg, in Stephens passage, causing the loss of a number of lives. Capt. Benjamin, of Tacoma, left on the same date for Quinalt river, to take charge of the work of salving the French bark Ernest Reyer, which went ashore at the mouth of the Washington river during the gales of last November. The Ernest Reyer had a cargo of wines and liquors for the Sound. chiding about 4,500,000 rivets and 40 miles of wire in the installation of their electrical equipment.

In the construction of these vessels the largest frames ever manufactured are used, being 124-inch channels and only 30 inches spart. There are to be five continuous decks, from stem to stern, all of steel, as follows, beginning at the bottom: Orlop, lower, 'tween, main and upper. Below the main deck the cargo will be carried. On this deck are to be accommodations for second-class, third-class and steerage passengers, and livestock. Above the upper will be three 'midship decks for first-class passengers, making eight decks in all, including the bridge. The dising salcon will be located on the upper deck; the library and ladies' salcon on the promenade deck, while the captain will have his cabin and chart-house on the bridge deck.

MARENSE NOTES.

hawser broke and the steamer then ran back and notified one of the Puget Sound company's tugs, which towed the ship from her dangerous position. The crew of the Flotbek had gone ashore when the tug reached her, and the Puget Sound Tugboat company made a heavy claim for salvage.

SALVAGE CREWS Leave for the North to Locate the Sunken Steamer Islander.

STILL DISENGAGED.

Durbridge Cannot Find Charter at a Low Rate.

Low Rate.

The British ship Durbridge has been lying idle in the Royal Roads since she arrived over a week ago from Shanghai, and she is the only disengaged ship in the Northwest suitable for wheat loading. The vessel has been offering in vain at 25 shillings, which is one shilling and threepence less than the last spot charter made at Portland.

The French bark Jacques, a moderate sized carrier, was chartered Saturday at San Francisco at 23s, 9d., and some of the Bay City exporters are looking for a corresponding drop in new crop charters. It has been well known for a long time that the wheat crop in Oregon and Washington would this senson fall short of the record-breaker of last year. As an offset to this prospective shortage a much larger crop than that of last year has been reported in California, but according to late reports from the South, the California crop, instead of being larger, will be much smaller. Steamer Umatilla sailed last night for San Francisco. She had few passengers from this port. Those who embarked here were Miss M. M. Burns, F. A. Harrison and John Tucker.
Capt. Gaudin wires to the Colonist from Carmanah Point to the effect that the fog alarm at Carmanah, will be silent until the completion of repairs. Schooner Kilmeny, the little fishing schooner with which Capt. Graur and the five fishermen who sail with him are working up quite a halibut business, loaded her ice yesterday, and is making ready for another trip to the halibut banks off Cape Flattery. She will probably sail today or tomorrow. The last trip was a very rough one, storms delaying the vessel for 14 days.

Steam collier Aztec pressed up yesterday morning, bound to Ladysmith from Port Angeles to load coal for Port Los Angeles

LUMBER CARRIERS.

Half a Dozen Vessels to Be Built in Vancouver.

According to a statement made in the city today by interested marine men, it is probable that work will soon be commenced on six schoolers in this port to be used in the lumber carrying trade, says the Vancouver Province. A standard model for the ships is now being completed, and they promoters of the proposition are spending considerable money in completing the arrangements.

The vessels, according to the plans, as stated this morning, are to be four-masters, of 1,000 tons each, and to have a carrying capacity of a million to a milion and a quarter feet of lumber. This style of vessel, about 220 feet long, has been built for several years at Port Blakeley, Wash., and has been a par-According to a statement made in the

style of vessel, about 220 feet long, has been built for several years at Port Blakeley, Wash, and has been a particularly successful lumber carrier. It is stated that the boats will be constructed at Moodyville, but of course final arrangements have not been made. The cost of a vessel of the kind indicated would be about \$60,000.

Capt. Erickson is interested in the scheme, which is being backed principally by the B. C. M. T. & T. Co. Inquiry at their offices this morning elicited the official information that it was proposed to build one vessel at the present time, but other authorities down town stated that the fleet would be soon under construction if the present arrangements are

struction if the present arrangements are

The United States battleship Wisconsin passed in from sea yesterday bound to the naval yard at Bremerton, where she will undergo repairs.

MARINE MOVEMENTS.

Steamer Indravelli and Five Other Liners Due Next Week,

Steamer Glenozie, of the Northern Pacific line, sailed from the outer wharf last night for Yokohama and the ports of China and Japan, with a large cargo of general merchandise, valued at \$262, \$24, which includes 5,305 bales of domestics, valued at \$217,125, consigned to Shanghai for the North China trade. A larger shipment than this was made two weeks ago on the Northern Pacific steamship Olympia, the two shipments together amounting to 12,212 bales, or 9,704,600 yards. From this port the Glenogle took a consignment of 900 cases of salmon, brought here yesterday by the steamer Unican, of the United canneries, for shipment to Japan. Two Chineses were taken on board here, one living and one dead.

No less than six large Oriental liners are due at the outer wharf within the first three days of next week, which fact shows how largely the Oriental fleets have been increased. Ten years ago there were not many more than six vessels on the route altogether. One of the expected liners is a new vessel to Victoria, the ilner Indravelli is of the Portland-Yokohama line, which is bringing passengers and freight to Victoria on this nassage. The Indravelli is now out nine days from Yokohama for this port, and is due at the outer wharf about Wednesday next. The Indravelli is now out nie canner is only empowered to carry one Chinese for every 50 tons of her register. After discharging her freight and passengers at Victoria the Indravelli will proceed to Portland. ONTARIO ELECTIONS.

The final results of the elections in the province of Ontario have not yet been received at the time of writing; but victory is conceded to the Ross government by a majority of four. This is a great change from the position of parties before the election, and it is very doubtful whether four will be found a working majority in a House of ninety-eight members. In the last House the Conservatives had forty-one members in a legisla-ture of ninety-four, and were therefore in a minority of twelve. In the House as at present elected they have fortyeight. This points to a great growth of Conservative sentiment in the province of Ontario. When we consider the perfection to which the party machine has been brought in Ontario, and the ruthless methods used to procure victory for the Liberals who control the government, it is not too much to say that the elections show Ontario to be overwhelmingly Constown Ontario to be overwhelmingly Conservative. One thing is certain, the good people of Ontario, with a government holding power upon so narrow a majority, are likely to see very lively times in politics. A majority of four in a House of thirty-eight and a majority of four in a House of ninety-eight are two very different things, yet the political atmosphere has been highly charged in British Columbia under the former condition.

THE RIGHT THING.

Mr. Curtis' trades-union bill was voted and show the very different content of the content of Liberals who control the government, it

Mr. Curtis' trades-union bill was voted down yesterday upon its second reading by a majority of fourteen. This is as it should be. The bill embodied a most pernicious principle of legislation. It proposed to alter the effect of the common law upon the proceedings of one kind of corporate body, and leave it unaltered in reference to others. No doubt the attempt will be made to denounce those who voted against the bill as enemies of labor. But that attempt will fail. Working men have just as keen a sense of justice as anybody else. This bill proposed to put certain associations of working men upon a different footing in reference to the common law from all other associations, even those which may or may not contain working men among try from which we derive our constitu-tion, which discriminated against the common people in favor of landlords and employers of labor. But two wrongs of the greatest drawbacks this city has never have, and do not now, make a right. There is no reason why, having right. There is no reason why, having escaped the tyranny of one class in the sociations cannot efface the disagreeable community, we should subject ourselves to the tyranny of another. If society is to be developed along right lines, we must be just to all, before we are generous to the class to which we may happen to be lar and has most justifiably and wisely

been rejected by the legislature.

FAIR OR NO FAIR.

A general meeting of the Agricultural association will be held at the City Hall onight. We take this opportunity of giving this meeting the fullest prominence ecause it is highly important that every member of the association should be present. Upon the action taken at this meeting will very largely depend the juestion whether an Exhibition will be eld this Fall or not. We take the view that an Exhibition must be held, if Vicoria is not to earn the reputation of beng a community of "quitters," where hings are taken up, carried along with enthusiasm for a while, and then allowed o drop. This is the worst reputation ity can possibly acquire. If the first lifficulty, the first drawback, the first obstacle simply causes people to throw up their hands and quit, why, then, it is a poor lookout not merely for exhibitions, out for every enterprise of a public nathere is enterprise enough n the city, if properly organized and focalized, to put this thing through. Our previous article has elicited the fact that there are a few business men in the com-munity who are ready to put their shoul-

ers to the wheel, organize a guarantee und and take the responsibility of puting the Exhibition on a commercial basis. We would suggest the appointment of a small committee, two or three men are enough, if they will agree to do the work, to go round the city and raise a guarantee fund. Then let the business management of the Exhibition. As their own money would be at stake, they would be likely to organize the Exhibition as it should be organized, upon ourely business principles. With regard to a guarantee fund, the larger it is the smaller percentage required to meet a possible deficit. Therefore, the people willing to pay a heavy percentage on their guarantee. Afterwards those may be approached who could not afford such a large percentage. Suppose an individ-ual or firm guaranteed \$500 in the expectation that with a guarantee fund of 10,000 they might be called upon to pay \$300. That individual or firm could aford to guarantee \$1,000, if the guarantee fund amounted to \$20,000. By means of isk of loss could be so spread over the ommunity that the proportion ever likely to be called on from any individual would be far outweighed by the direct and indirect benefit he as a citizen would gain from an Exhibition. We sincerely hope that some such means will adopted to provide the credit upon which nee a successful and profitable Exhibition in can be organized.

POSTAL RATES.

The correspondence between Mr. Sarel and Lord Londonderry and Mr. Chamberlain on the question of postal rates upon printed matter coming into Canada from the United Kingdom, as compared vith printed matter from the United States, is interesting. It has elicited the fact that the authorities of Great Britain do not see why their postal revenue should be diminished to confer a benefit, or presumed benefit, upon Canada. With all due deference to Lord Londonderry and Mr. Joseph Chamberlain, that is rather a penny-wise-and-pound-foolish point of view. American manufactured goods are largely introduced into Canada by means of advertisements in American periodicals. The country is flooded with the periodicals and the manufactured goods come in the wake of the flood. Equal postal facilities for British periodicals would mean a better demand for the British manufactures advertised in them. That is a condition of affairs which appeals to us as rather more Great Britain's interest to bring about than Canada's, al-

treet watering by the street railway,

though it is our desire also.

Little King Alfonso has already pressed himself as averse to bull fighting, and to have a predelection in favor of horse racing. If Alfonso ever tackles "stud horse" as it obtains in the wild and woolly West, he is sure to get all the racing he wants.

The gold production of the Rand last December was 52,897 ounces, while last March it reached 104,100 ounces and 119,500 in April. This is about half the output immediately before the war, but shows that the South African mines are rapidly being got in perfect running order.

There are said to be more automobiles in Palestine than in any other country their members. That is not fair; it is not just. We do not question the fact that legislation has at different times heat, which has always rendered horses been placed upon the Statute book, not or mules of very little value in traveling, perhaps in this province, but in the counterprovince, but in the counterprovince in this case fill a

> Mr. Sorby's letter on the dust nuisance was opportune and authoritative. One a to contend with is the flying dust, and memory of an experience such as is afforded by a ride in an open car when the wind has got down to its proper curve.

Mr. T. P. Coffee, vice-president of the Mr. T. P. Collee, vice-president of the Dominion Permanent Loan Co., of Toronto, who has been touring British Columbia, has been saying some very pleasant things concerning the province. In a Common Permanent Loan Co., of Toronto paper he says: "All things considered, I have reached the conclusion that no better investments in Canada can be made than those offered at this moment by British Columbia, whose growth and progress during the posting the menting whose growth and progress during the past five years has been simply phenomenal, and is pagers and progress during the past five years has been simply phenomenal, and is pagers and progress during the past five years has been simply phenomenal, and is pagers and progress during the past five years has been simply phenomenal, and is pagers and progress during the past five years has been simply phenomenal, and is pagers and progress during the past five years has been simply phenomenal, and is pager and progress during the past five years has been simply phenomenal, and is pager and progress during the past five years has been simply phenomenal, and is pager and progress during the past five years has been simply phenomenal, and is pager and progress during the past five years has been simply phenomenal, and is pager and progress during the past five years has been simply phenomenal, and is pager and progress during the past five years has been simply phenomenal, and is years the pager and progress during the past five years have years the pager and the mitter states. LETIERS TO THE EDITOR.

CARNEGIE LIBRARY.

Sir,— I do not claim to have any special qualification or right to write about the Carnegie library site. Still, I venture to make a few suggestions which may lead to others. It is an important matter for the city and some of the procedure suggested do not appear to me to be good, I refer particularly to the proposal to select a site by vote of the ratepayers. Would it not be much better to select, say three men, in whom the heat sound say wo others who have seen ilbraries in other cities and know the wants and adjuncts to a good public library, such as reading rooms for men and women, and perhaps a lecture room. Let these gentlemen select and recommend But further, I would have these gentlemen select a good architect (or architects, as I think may be said to be the case in the new Government House) and state to the architect what is required, and in fact, act in conjunction with the architect as to the suitability of the site. A private gentleman would, I think, act in this way, and so act wisely. As to sites, I have two suggestions. The government might be induced to repeat the city with the old post office site, and the library might be on the second floor, approached by a spacelous flight of stairs that an old man like myself could climb with ease; shops u site, and the library might be on the second floor, approached by a spacelous flight of stairs that an old man like myself could climb with ease; shops u site, and the library might be induced to the suitable of the suitability of th

POSTAGE ON PAPERS.

Following is the correspondence between Mr. C. Wentworth Sarel and the authoristics in London, a synopsis of which appeared in the Colonist several days 20:

ed in the Colonist several days ago:
April 8, 1802.
The Most Hon, the Marquis of Londonderry, K.G., Postmaster-General, London, England:
My Lord Marquis.—Re Canadian Posta arrangements, I have written to the Colonial Secretary on the above subject, but feel I should not be doing my duty without asking whether your lordship would not endeavor to lighten the postal tariff on books, magazines and papers between the United Kingdom and Canada.
Our case is simply this: From any part of the United States and Canada postage on magazines and papers from house of publication is one cent or a half penny per ounce; from Great Britain 16 cents or 8 pence per pound. For instance the postage on thirteen Windsor magazines from London, costing 4s, 3d, was 3s, 10d. or 90 per cent of the value. The postage on 125 Munseys, (an American magazine of shinlar size) costing \$9.37 was \$1.12 or about 11 per cent of the value. The result is that the Munsey is sold at 16 cents and the Windsor for 20 cents to secure the same profit, and the people either take the cheaper American magazine of swithout. This is not, however, the only result.

I have the honor to remain, my lord mar quis, your most obedient servant. C. WENTWORTH SAREL. He got this reply:

this reply:
General Post Office, London,
May 10, 1902.

General Post Office, London,
May 10, 1902.

Sir,—I am directed by the PostmasterGeneral to acknowledge the receipt of your
letter of the Sti ultimo, advocating a reduction of the postage on newspapers and
printed papers passing between the United
Kingdom and Canada.

In reply I am to inform you that this
office the Still Consider of the Still
In reply I am to inform you that this
office the Still Consider of the Still
In reply I am to inform you that this
office the Still Consider of the Still
In reply I am to inform you that the

In reply I am to inform you that the
still British Consider
sions engaged the attention of His Most
sive government, but that the funnelal objections to any reduction of the present
rate are very great. The existing rate of
one half-nenny per two ounces is the minimum rate adopted throughout the British
Empire for the transmission of printed papers from one country or colony to another;
and, apart from any financial question, the
interests of postal uniformity render it undesirable that any change should be introduced in the special case of printed matter sent between this country and Canada.
You may perhaps not be aware that the
rate of one cent per pound charged in the
United States for the conveynnee of newspapers and extended specially to newspapers and extended specially to newspapapers a

There is one man in London who will be profoundly thankful when the coronation is over. That is the Lord Mayor, for he has been besleged dally with schemes and suggestions for the event by an army of cranks.—San Francisco Chronicle.

The people have lacked faith in themselves, in their province and its magnificent resources. Instead of having condense in the province and defending it urainst the often unmerited drittelism of outsiders, they have joined in the chorus of those who sang nothing but blue ruin songs.—Bouadary Creek Times.

The once elaborately planned and extensively, advertised Chilicot raliroad is now a thing of the past. It has ceased to be even a dream, William Workman, of Dyen, says that a letter has been received from Mr. L. D. Kinney, the persistent promoter of the scheme, and he admits the case to be hopeless and he gives over the whole proposition, tunnel and all—News-Advertiser.

P.4.

Canada's aggregate trade for the tenmonths ending April 30th amounted to \$333,522,149, an increase of \$27,446,220 over the same period of last year. The imports for the ten mouths, exclusive of coin and bullon, totalled \$157,779,329, a betterment of \$14,833,909. For the mouth of April only the increase was \$3,116,221. For the ten mouths the exports of domestic products only, excluding coin and bullon, aggregated \$158,190,071, or \$13,039,138 shead of the first ten mouths of the first ten contins of the preceding year. For the mouth of the the exports part of the proceeding the continuous conti

Canadian Trade Review.

It would be well to defer boasting of the humanity of Americans in their treatment of inferior races until the men of the South cease behaving like Apaches when they deal with negro criminals. The story that comes from Longview. Texas, is even more hideous than the revelations of savagery in the treatment of Filiplinos by "Hell-Roaring Jake" and his familiars of the American Inquisition. It is the story of the killing of a negro by slow torture, and the gloating of a crowd over his agony. Burning out his eyes and pressing brands upon various parts of his body were not slow enough to suit the men and women of the superior race, and they clamored for prolongation of the torture.—Philadelphia North American.

The man Funston, who was made a

The man Funston, who was made a major-general in the United States army because of the success of his private detective scheme for capturing Aguinaldo, has been giving his account of the episode. Among other things he is reported as saying of one of the Filipinos who were with their leader when he was surprised:

"Alambra was shot in the face. He jumped out of the window." Villie, shot in the shoulder, followed him out of the window and into the river, but the Macabebes saw him and ran down to the river bank, and they waded in and fished him out, and kicked him fill the way up the bank, and asked him how he liked it."

Men in the military service of the United

Men in the military service of the United States, under command of a brigadier-general, two captains and two lieuteansts, kicked a wounded prisoner, and asked him how he liked it! And the chief culprit boasts of the thing!—Montreal Gazette.

how he liked it! And the chief culprit boasts of the (hing)-Montreal Gazette.

Americans will not think less of King Edward for his royal act of courtesy in inviting Mrs. Harriet Lane Johnson, over his own signature, to attend the coronation coremonics at Westminster in June. Mrs. Johnson was mistress of the White House during the administration of President James Buchanan, and when King Edward, then the Prince of Wales, visited this country in 1860, he was layishly entertained at the White House, President Buchanan and James Buchanan, and when King Edward, then the Prince of Wales, visited this country in 1860, he was layishly entertained at the White House, President Buchanan and Buch and the Change of the State of the White House, President Buch Rospitality as a state of the Change of the Change of the State of the Change of the Change of the State of the State of the Change of the State of the State

Cold Affects

Severe Headaches, Constipation, and Kidney Disorders the Result—Dr. Chase's Kidney-Liver Pills Correct the Action of Filtering and Excretory Organs.

The liver is very easily affected by change of temperature, nervous strain and over-eating, and is the cause of more pains and aches than any other organ of the body. It is the duty of the liver to filter from the blood the poisonous bile, which it passes into the intestines to act as nature's cathartic. One of the first results of a sluggish, congested liver is constipation, alternating with looseness of the bowels and what is commonly called biliousness.

Bitter taste in the mouth, sallow com-

Bitter taste in the mouth, sallow com-Bitter taste in the mouth, sallow complexion, a coated tongue, severe headaches, pain under shoulder blades, fulness in right side, dizziness, ill-temper, peevishness and depression of spirits are indications of an ailing liver. The remarkable effectiveness of Dr. Canse's Kidney-Liver Pills in regulating the action of the liver, kidneys and bowels easily places it first as a treatment for derangements of these organs. There are few people who are not more or less subject to biliousness in the winter season, when more or less confined to the subject to biliousness in the winter sea-son, when more or less confined to the house, and so rendered sensitive to change of temperature. Meat diet and the artificial foods of winter also tend to make the liver sluggish, the kidneys in-active and the bowels constipated.

The promptness with which Dr. Chase's Kidney-Liver Pills correct the action of the filtering and excretory organs and rid the blood of poisonous bile gans and rid the blood of poisonous bile impurities commend them to reasoning people as a suitable family medicine to be kept in the home all the time. Dr. Chase's Kidney-Liver Pills are prompt, pleasant and natural in action, farreaching in effect and perfectly scientific. They have proven their right to your confidence in scores of thousands of cases, many, no doubt, in your immediate locality.

Do not imagine that you are experi-

FRASER RIVER.

Columbian. While those interested in the navigation of the Fraser have been waiting expect unity for the arrival of the chief engineer of the Marine Department, so that orders may be given for the lights required at the mouth of the Fraser, it seems that Ottawa loes not attach much importance to this letail of Col. Anderson's western programme.

ANOTHER CANNERY COMBINE.

From Delta News.

There is a rumor affoat to the effect that the cannerles not in the combine will form a company to rival the Canadian Packer's Association.

REPORT DENIED.

From News-Advertiser.

Mr. W. Farrell, of Messrs. Farrell & Tregent, through whom the contracts for supplying oats for the arm in South Africa, now being filled here, were secured, states there is no truth in the report sent out from Victoria last night to the effect that a third order had been secured and would be filled in Scattle. An American firm has, however, secured a contract, and on Saturday the steamer Askehell, a 6,000-ton carrier, sailed from Coronel for Portland, under charter to load 300,000 bushels of oats for the British army in South Africa.

KNOB HILL WORKINGS.

From Phoenix Pioneer.

In the four years, or up to May 1, 1902, the footage of work done in the Knob Hill workings reaches the total to 1,500 feet, of which 1,213 feet were sinking and easier. In the same time 2,918,728 custing, and 5,523 feet were drifting and cross-cutting. In the same time 2,918,728 custing feet of ground were removed, and the mine has shipped 212,712 tons of ore to the company's smelter at Grank Forks.

STILL IN THE RING.

From Trail Creek News.

Word from Nelson announces that John Houston is again to enter the newspaper field in that city, on a larger scale than ever. The office is to be equipped with a complete engraving plant, and a feature of the new paper will be its illustrations of the many interesting features of the Kootenay country.

A CLOUDBURST.

From Nelson News A cloudburst occurred on the north branch of the Salmon last week totally destroying the road from the Yellowstone mine to Salmo. The water piled the earth twenty feet high at the foot of the mountain, where the road runs and in other places filled up the channel of the river, turning it along the road.

From Nelson News.

All passengers from Nelson for points east of Coal Creek will be sent by way of Tevelstoke, traffic being stopped over parts of the Crow, until the sildes have been cleared off. At Coal Creek, two miles this side of Fernle, the bridge suffered considerably, and will take some time to put in shape again, and at the Loop mud sildes burled the line. The bridge over the St. Mary's river, on the Alberta side of the mountains, was badly damaged. From Nelson News.

THEIR GAINS.

THEIR GAINS.

From Vancouver World.
Twenty thousand dollars in cash and \$40,000 in capital stock was the price realized by J. F. Bledso, W. D. Verschoyle. Capt. Crockett and a number of other local properties located on Vancouver Island. Mr. Verschoyle, from Taccom, brought the news of the successful consummation of the deal which netted this amount. The Taccom Steel Co. was the purchaser, and the first move will be to erect a 150-ton smelter at Taccom, and President Honry Howitt statted that Smelters on Vancouver Island would follow later. This same company secured the Iron properties at Texada Island recently, and its operations will be the first of large steel manufactures on this coast.

WATSON & McGREGOR 99 JOHNSON ST.

Fernie Fund.—Another \$15 was added resterday to the fund being raised at the Colonist office for the sufferers through the disaster at Fernie, Messrs. Bodwell & Duff contributing that amount.

Applications Held Over,—Yesterday again there was no Supreme court judge here to take chambers, and quite a batch of applications were again held over pending the return of one of them from the Mainland.

Decided Improvement.—Excellent progress is being made with the laying of the new concrete walk up the south side of Bastion street, and in a few more days the approach to the water front down that thoroughfare will be a most creditable and serviceable one.

Child's Death.—Irene, the infant daughter of Mr. and Mrs. David Baker, died at the family residence, No. 2, Saanich road, on Wednesday evening. The funeral will take place from the residence this afternoon at 2:30 o'clock. The religious services will be conducted by Rev. Percival Jenns.

To Visit Lepers.—The sanitary and health inspectors will make their quarterly official trip to Darcy island this afternoon, leaving on the tug Sadie at 1 p.m. Usually the trip is made on Sunday, but the services of the tug could not be secured for next Sunday, hence today's trip. The usual cargo of provisions will be taken for the lepers.

For Street Pavement.—Government street is to be paved shortly and tenders are out for 430,000 fir paving blocks, to be delivered at the Yates street stables. W. W. Northeott, purchasing agent, will receive the tenders at his office in the City hall until 3 o'clock on Monday afternoon. Specifications may be seen and any information learned at the same place.

Old Man's Death.—James Smith, aged 66 years, a native of Lanarkshire, Scotland, died yesterday morning at the home for the aged and infirm. He had lived in the province for 29 years, but had no relatives here. For the past year he has been an inmate of the home, and previous to that worked at the Empire saloon on Johnson street. The funeral will take place from the Victoria Undertaking Parlors at 2:30 this afternoon.

Hay for Africa.—At the request of Prof. Robertson, the Deputy Minister of Agriculture has had 400 tons of hay inspected at Vancouver, which Messrs. Brackman-Ker are shipping to South Africa for the military authorities. The hay has been pronounced extra No. 1 by the inspectors employed, Messrs. J. H. Grisdale, agriculturist of the Central Experimental farm, Ottawa, and Thos, Cunningham, Mr. Grisdale says he never saw better timothy hay.

General's Inspection.—Vesterday morning the artillery companies at Work Point marched out for gun practice at Macaulay Point, and the other defensive works between this city and the naval suburb. Under the inspection of Major General Parsons half a dozen rounds were fired from the big six-inch guns, which with all their appurtenances at well as the firing exercises of the men, were then given a searching official inspection. At noon the commander-inchief visited the Black Rock battery and Duatze Hill, where a similar inspection of the sub-marine mining and armory ordnance establishments was also held.

Imprisonment with hard labor.

Enjoyable Excursion Tomorrow.—An excellent opportunity is afforded any one tomorrow wishing to enjoy a sail through the picturesque islands in the inner seas of the Gulf of Georgia, the popular excursion steamer City of Nanaimo taking the pupils of St. Anne's convent for the trip around the Islands, calling at Kuper island for a short stay for passengers to visit the Kuper Island Industrial school. The steamer will leave from the Janion wharf at 7 a. m., the fare for the return trip being only 50 cents. the picturesque islands in the inner san of the Gulf of Georgia, the popular excursion steamer City of Nanaimo taking the pupils of St. Anne's convent for the trip around the Islands, calling at Kuper island for a short stay for passing the pupils of St. Anne's convent for the trip around the Islands, calling at Kuper island for a short stay for passing trial school. The steamer will leave trial school. The steamer will leave trial school and the Islands in "Beaucaire." The comedy is a bright, "scintillating story of England's famous watering place, Bath, when wit was powerful as swords, and the droop of a fair woman's except hundred miles congregated here and linked the Stars and Stripes with the Union Jack and had a two days' celebration in honor of the memory of the late Queen Victoria's birthiday," says a Dawson despatch of Tuesday Islands, "The celebration was a great success in every way. The big events of the celebration were the Queen's place and the Merchants' sweepstake hore was a close finish, Alder winning by a nose."

Much Trayeled.—"Miss D. Hirschol.

Much Traveled.—"Miss D. Hirschel-Cohen, a much traveled little lady of ten summers, accompanied by her maid, and who has been stopping at the Westminster for several days, has taken her departure on fier 18,000-mile journey, says a Los Angeles paper. Miss Hirschel-Cohen, though born in Africa, is one of the Caucasian race, and seems none the less fair for her accidental birth on the dark continent. She has made eight of the Scriptures Theory are more Cohen, though born in Africa, is one of the Caucasian race, and seems none the less fair for her accidental birth on the dark continent. She has made eight trips across the American continent and area are acceptanced thousands of miles in Earope, and in other parts of the world. Miss Hieschel-Cohen is a bright child, and a delightful conversationalist for one of her age." the young the systematic daily reading of the Scriptures. There are now branches in every part of the British Empire and in a number of foreign coantries. The principle adopted is to read each book, or the passages chosen from it, consecutively, and as far as possible to read an Old Testament and a New Testament book alternately, the Psalms, however, being interspersed between the blooks. Scarcely anything is omitted from the New Testament books, but in the Old Testament a selection is made of the most suitable passages, and in the more difficult books only a few portions are chosen. The Gospels are read twice during the course, and some of them three times; two Gospels being taken each year.

unstamped Tobacco.—Nine Chinese dealers have been summoned to appear in the city police court on Monday to answer to a charge of displaying for sale tobacco without the stamp of the Inland Revenue department on it. It has been the habit of the Chinese to take tobacco out of its original package when they get it in, and put it in a special box. This is against the Inland Revenue Act, which provides that the stamp of the department must be left on tobacco offered for sale. The breach of the act in the Chinese quarter was observed by the city detectives, while searching for two lots of tobacco, which have been stolen during the past two months. One lot was stolen from the E. & N. railway station, or when in transit and the other from the warehouse of S. J. Pitts. It has been found impossible to locate the tobacco, on account of it having been removed from its original packages, which are numbered. three times; two Gospels being taken each year.

About 500,000 cards are now issued cach year.

About 500,000 cards are now issued annually to branches of the Scripture union in Great Britain, 93,000 in Canda, West Indies, South Africa, India, Australia and the United States. About 116,000 others are issued in 30 foreign languages. The languages, besides English, in which cards have been issued are: French, German, Italian, Spanish, Portuguese, Dutch, Swedish, Danish, Norwegian, Bohemian, Magyar, Polish, Climish, Arabic, Chinese, Burmese, Japmese, Hindi, Hindustani, Bengale, Marathi, Gujerati, Tamil, Telugu, Orija, Malyalun, Singhalese, Malagasy, Sauthali and Kaffir. Many branches are formed in connection with Sunday schools, private schools, colleges, or in connection with Sunday organizations.

Suicide in San Francisco.—At San Francisco on Thursday last Mrs. Mahel J. Leas, eldest daughter of Mrs. Sabiston, formerly of this city, committed suicide by shooting herself. Mrs. Leas leaves a sister, Mrs. H. Erskine, in Victoria. The Examiner says of the suicide: Mrs. Mahel J. Leas, a young woman of 23 years of age, committed suicide last evening at Carrville, on the occan beach, after a quarrel with ther husband, resulting from a visit to her mother, Mrs. Sabiston, of 1.463 Ellis street. Last June she married J. Stewart Leas, a coachman. The union was opposed vigorously by her mother, and every time she visited the latter's home a quarrel with her husband ensued. Yesterday Mrs. Leas ealled upon her mother, and when she returned to the car that is used as a dwelling by the couple the usual scene was repeated. Mrs. Leas waited until her husband went into the rear of the premises, and then she shot herself in the right brogst, the bullet crossing the

VICTORIA DAILY! COLUNIST, FRIDAY, MAY 30, 1904;

Large Committee Is Appointed Which Will Report Later On.

The Council Chamber was well crowded at the call of Mayor Hayward last evening to discuss the manner in which the city should celebrate the Coronation Day of His Majesty King Edward VII.

(June 26.)

A large delegation of the Sister societies were present, having adjourned their meeting to attend the public gathering in a body, while Admiral Bickford was represented by Lieut. Church of the diagship Grafton, and the aldermen and M. P. P.'s were also well in evidence.

Having read the petition of the citizens requesting that a public meeting be called to consider the proper celebration of Coronation Day, His Worship Mayor Hayward expressed the regrets of Admiral Bickford at his inability to attend the meeting in person in response to the invitation of His Worship. The letter stated that an officer of the fleet would, however, represent him at the meeting, and contained the further most important amountement that the day was going to be marked by a function in which the forces of the army and navy would combine, the features of which would be a review of the forces at Macaulay Point and the firing of a "fen de jole" at noon. In the absence of Mr. Moresby, Mr. Ideeming was appointed secretary of the meeting pro tem.

On motion of H. Dallas Helmeken, His Worship was requested to convey the thanks of the citizens to Admiral Bickford for his courteous response, as well as their appreciation of the importance of the part to be taken on that day by the forces under his command.

A further resolution was then offered by Mr. Helmeken to the effect that Coronation Day should be fittingly observed by this city of Victoria. In seconding this, Mr. Lugrin enquired what part the provincial government was going to take in the matter. This question, however, was left in abeyance, and it was unanimously decided to keep the day here.

Ex-Mayor Redfern then Driefly rehearsed the nature of the great ceremony that would be witnessed on that day at Westminster. It also behooved all he said to remember that the day was not a day for sports or lighter of the part of the part of the great ceremony that would be witnessed on that day at the said to remember that the day was not a fay for sports or lighter of the part of

SOCIETIES' REUNION.

Meeting of the General Committee Hel-Last Evening at Pioneer Hall.

Coronation The general committee, societies' re-union day, met at Pioneer hall last night et S o'clock, there being a good attend-nice, only two delegates being absent.

at 8 o'clock, there being a good attendance, only two delegates being absent.
Immediately after the meeting being called to order it was moved, seconded and
carried "that the committee as a whole
do adjourn to the City hall to attend the
public meeting called by the Mayor for
the purpose of planning some means of
celebrating His Majesty's coronation
with fitting ceremony."

The committee then adjourned to the
City hall, where some of the members
took part in the discussion.
When the meeting in the City hall
broke up the delegates wended their
way back to the Pioneer hall and resumed business. The report of the sports
committee was adopted, the finance committee did not report, and the grounds
committee's report was referred back to
them for further particulars. Bro. Hanna reported as delegate on behalf of the
Royal Areanum, and Bro. Kettle on
behalf of Dauntless lodge, C.O.F. Dominion lodge withdrew from the celebration committee.

FAREWELL TO

THEIR PASTOR

Address Presented to Rev Mr Hastings By People of Emmanuel Church

The congregation of Emmanuel Baptist church assembled in the schoolroom to bid farewell to their pastor, Rev. J. G. Hastings, last night. The chair was occupied by W. P. Marchant, who gave an address, expressing sorrow of the people at Mr. Hastings' departure, and their heartfel appreciation of his work among them during the past three years. Rev. J. F. Vichert, Rev. A. Friser and inembers of the congregation spoke in a similar strain. Mr. A. J. Pinneo, on behalf of the congregation, then presented Rev. Mr. Hastings with an address and a purse. Rev. Mr. Hastings with an address and a purse. Rev. Mr. Hastings made a feeling repty. Rev. Mr. Hastings and the address and a purse. With the address of the people, and the meeting then the correct them being served. Rev. Mr. Hastings and Mrs. Hastings received the good wishes of the people, and the meeting then dispersed. Rev. Mr. Hastings will take up business in Manitoba:

The address is as follows:

Dear Pastor,—After three years of fellowship as pastor and people, the time has come for us to separate. Tonight we have assembled to say the final good-bye and bid you and your family Godspeed, as you leave for new scenes and new activities. That this occasion has in it much of sadness does not need to be said. During the three years of your faithful, earmest ministrations among us you have won our high settem and unbounded respect, and though our paths now divide, it may be never to cross again on earth, we trust that you will ever feel that your circle of sincers that they have been greatly helped, strengthened and uplifted under your carnest, faithful preaching, while your devoted ministrations in the homes visited by sickness and death, have been greatly helped, strengthened and uplifted under your carnest, faithful preaching, while your devoted ministrations in the homes visited by sickness and death, have been greatly helped, strengthened and uplifted under your carnest, that they have been greatly helped, strengthened and uplifted under your carnest, while you ou

Ladies' Day On Saturday

Fair Sex Will Be The Guests of the Baseball Team Tomorrow.

Other Sports Which Will Take Place in the City-Cricket Matches.

Saturday will be "ladies' day" at the ball park; the fair sex on this occasion being the guests of the Victoria Baseball cub. Last season "ladies' day" was a great success, and the boys hope that the ladies will turn out en masse and make the first "ladies' day" of the present season even a larger success than the one last season.

That Saturday's game will be another good one is almost a certainty, as the

That Saturday's game will be another good one is almost a certainty, as the visiting team is without a doubt a very strong one, their battery, Fay and Jones, being considered one of the best in the Northwest. The team has won every game they have played this season, and last season the same team, with Fay and Jones in the points, played one of the best games of the season at Everett, the score being 3-2, in favor of Everett. They promise to put up an article of ball that will surprise the natives, and of course look forward to adding Victoria to their list of whis.

look forward to adding victoria to their list of wins.

The local team have been practising hard and feel confident of breaking their long losing spell and it is to be hoped that their streak of hard luck will be breaken on Saturday. Although the hoped that their streak of hard luck will be broken on Saturday. Although the boys have lost their games to date, it is admitted on all sides that they have been putting up a great game, and really deserved to win the majority of their games. The line-up of the visitors will be as follows: Jones, c.; Fay, p.; O'Rear, 1b.; Harned, 2b.; Thomas, 3b.; Frost, ss.; Smith, 1.f.; Eldrige, c.f.; Gore, r.f.; Nighart, Larson and Benner, substitutes. The game will be called at the usual time, 3 o'clock.

Match Between Officers and Men of H. M. S. Grafton Yesterday.

LOCAL NEWS.

Society Dance.—An enjoyable dance was given last evening by the Degree of Honor, A. O. U. W. in their hall.

Committee Meeting.—The committee of Thirty appointed last evening to take charge of the Coronation Day proceed-ings will meet at the City hall on Mon-day afternoon at 3 o'clock.

Fad Spreading.—Ping-pong still promises many attractions. After raging throughout Lent in the homes and clubs of the city, it has at last been introduced at the Driard hotel, where a small billiard table was devoted to the game. From the Driard it made still further spread and was taken up in the music halls of the town. Through the generosity of Beaumont Boggs, the students at the High school also have for the past few days shown much devotion to the game, as that trustee has lately presented the school with the necessary board and set.

NOTICES IN

THE GAZETTE

Appointments for School Teachers Examinations - New License Inspector.

The following nortees as the Official Gazette for the province for the coming week:

Its provisions prohibit the sale of Ilquors between the hours of 11 and 5 in the morning on weeks days, and 11 of the \$4,000,000 fer Complex of the Crements of the Chendils creek to fit that stream for the driving of saw logs.

UNCOMFORTABLE BUT HEALTHY

How to Make Home a Fortress Against Microbes of Disease.

From London Leader.

The scientific investigation into the question of ventilation in the House of Commons, which culminated the other day in the collection of a number of samples of air for bacteriological examination. day in the collection of a number ofsamples of air for bacteriological examination, prompted the writer to obtain
from an authoritative source some
hats as to how both public and domestic buildings can be rendered practically
disease proof.

"Ituman nature—especially feminins
human nature—would need some radical
alteration before it could be induced to
live in an ideally healthy home.

To begin with, the would-be hygienic
housewife must make up her mind to
dispense with dainty and tasteful upholstery in her new home, for this is
the happy hunting grounds of the
clusive and malevolent microbe.

In the ideal health home there should
be no stairs—all the rooms should be on
the ground floor. No picturesque insectharboring creepers should adorn the
walls.

Ordinary bricks in some conditions on

walls.

Ordinary bricks in some conditions of the atmosphere lairs, and should be superseded by glazed and tight-fitting hygienic bricks; Naturally, the air of the country is purer than in town; still, such adjuncts of civilization as gas and water are not to be despised; so a hygienic dwelling-house that was situated too far from a town would have several grave draw; backs. A gravel soil is also indispensable,

placed under the floors.

Above this, and immediately beneath the floors, should be a "damp course", running right along the length of the walls, consisting of blocks of earthenware pierced for ventilation. This absolutely prevents any damp that might get past the concrete entering the house. The house may be of any design, but the windows should, for choice, reach from the top to the bottom of the walls! A good type of window is that in wlich a good type of window is that in wlich was the state of window is that in wlich was the state of window is that in wlich was the work of window is that in wlich was the work of window is that in wlich was the work of window is that in wlich was the work of window is that in wlich was the work of window is that in wlich was the work of window is that in wlich was the work of window is that in which we want was the work of which we want was the work of which we want was the work of which was the

TOO GREAT A RISK.

It is dangerous to neglect a simple case of itching piles as the trouble is likely to become chronic and develon into fatal incurable fistule or cancer of the rectum. A single application of Dr. Chase's Ointment will quickly relieve the itching and burning sensation, and a few boxes will cure any case of piles. This standard ointment has probably relieved more suffering than any preparation you can mention.

FOR HARMONY'S SAKE.

"Here are a few letters I wish you would post for me, dear," said Mrs. De Style, to her husband, who was preparing to go

out husband, who was preparing to go out husband, who was preparing to go out as Mr. De Style took them he glanced at the stamps and asked:

"My dear, why did you put sixpenny stamps on these letters? Penny ones would have carried them."

"I know it." replied his wife, "but how would a mauve stamp look on envelones of that lovely shade. This new stationery is of an exquisite color, and I couldn't spoil its effects with stamps that did not harmonize. These sixpenny stamps are the nearest match I could get."—London Tit Bits.

THE KIDNEY AND THE SKIN.

THE KIDSEY AND THE SKIN.

In the spring the kidneys have much to
do. If they are weak or torpid, they will
not do it well, and the skin will be pimply
or blotchy. That is telling the story in a
few words.
Hood's Sarsanarilla strengthens and stimulates the kidneys, cures and prevents
pimples, blotches and all cutaneous eruptions.
Don't fall to take it.

Provincial

Legislature

Two More of Mr. Curtis' Legislative Freaks Go By the Board.

House Makes Good Progress In Second Readings and Committee.

Legislative Chamber, May 29, 1902. Mr. Speaker took the chair at 2:30

p.m.
Rev. Henry J. Wood offered prayer.
Mr. McBride rose to a question of privilege. He stated that the following portion in the Colonist's report of Wednesday's proceedings was incorrect:

"MORE OBSTRUCTION.

"Mr. MoBride again rose to make another obstructive speech, declaring the government had no right to proceed with public bills in the hands of private members. "MORE OBSTRUCTION.

"He was called to order, and Mr. Mc Phillips was proceeding to argue Mr. McBride's right to speak, when he, also, was called to order. "Mr. McBride made another attempt

"Mr. McBride made another attempt to be heard, but was promptly checked." He had attempted to explain the posi-tion of the opposition, but was so loud-ly interrupted by hon, members that pos-sibly his words did not reach the press

gallery.

He now desired to explain what he had really said, but was called to order.

Hon. Mr. Prentice moved that the House proceed to orders of the day, after questions by members.

QUESTIONS.

S. Wilson there not path.

COW AND GALF.

porance displayed by the framers of the bill would lead him to the opinion that they were not fit to be at large. The proposed amendments gave far too much

House proceed to orders of the day, after questions by members.

QUESTIONS.

Hon, Mr. Wells declined to answer the following questions, put by Mr. McBride:

1. What services—with full particulars—were performed by Mr. Greenshields as representative of the local government in connection with negotiations between the federal and local governments?

2. What services—with full particulars—are to be performed by Mr. Greenshields for the province?

3. What instructions regarding Dominion government railway subsidies have been given Mr. Greenshields?

Mr. Tatlow asked the Hon, the Chief Coumissioner of Lands and Works:

1. Is it the policy of the government to protect the wages of men employed on government works?

2. Is the Chief Commissioner aware that one Max. S. Wilson has not received wyags due for painting the government buildings at Princeton, although the work was done in October last?

3. And, if so, will steps be taken to secure for Max. S. Wilson the said wages, amounting to \$216?

The Hon. Mr. Wells replied as follows:

"2. The Chief Commissioner has received an intimation that wages of Max. S. Wilson were not paid.

"3. No steps can be taken by the government."

"4. The Chief Commissioner aware that one Max. S. Wilson has not received wyags due for painting the government is able and warranted in doing so.

"2. The Chief Commissioner has received an intimation that wages of Max. S. Wilson were not paid.

"5. What instructions of the government is able and warranted in doing so.

"6. The Chief Commissioner has received an intimation that wages of Max. S. Wilson were not paid.

"7. The Chief Commissioner of the second condition of the best consideration of the House Hondow the help of the society should be enlarged. The help was included to cover. The seciety's hands there an intimate the bill in its was such cases which the bill in its was such cases which the bill was sincleded to cover. The seciety's hands there an intimate the received help and the principle of the bill. He looked upon it addition to ag proposed amendments gave far too much power to the society.

Hon. Mr. Eberts said there were many cases of deliberate, wanton cruelty where animals disensed, or too old for service, were heartlessly abandoned or ariven out to die by the wayside, and it was such cases which the bill was intended to cover. The society's hands should be strengthened, for they were doing a work of mercy which could not be too highly commended. If hon members could not agree with the bill in its present form, let them amend it to suit in committee

Mr. Martin did not agree with the principles of the bill. He looked upon it

would offer an amendment in commit-tee, meantime he would support the sec-ond reading.

are adopted and put in force by by-law. The second reading passed.

(CRUELTY TO ANIMALS.)

Mr. Helmcken moved the second reading of a bill to amend the Society for the Prevention of Cruelty to Animals Incorporation Act. The amendment gives power to agents or members of the society to destroy an animal found to be at large, abandoned or in the possession of any person who is not properly caring for said animal, and appearing in the judgment of two reputable citizens, or by a veterinary surgeon, called by him to view the same in his presence, to be injured, disabled, diseased past recovery, or unfit for any useful purpose. There is also a provision for supplying inpounded animals with necessary food.

Mr. Neill opposed the bill on the ground that its provisions were too general. It would permit any three iresponsible persons to seize and kill an animal at their own caprice. "Why," said Mr. Neill, "some of our politicians would not be safe under this bill." (Laughten)

Mr. A. W. Smith did not see the necessity for the amendments; the present law, in his opinion, filled all the requirements.

Mr. Hayward thought the bill went too far. The society was doing good work, but it would be a mistake to enlarge its powers to too greaf an extent.

Mr. Oliver opposed the bill. The ig-

consideration by the Imperial parlia-ment, and therefore he could not support the second reading. The second reading was carried on a vote of 18 to 12.

MUNICIPAL OLAUSES. MUNICIPAL CLAUSES.

'Mr. McInnes moved the second reading of the bill to amend the Municipal Clauses Act. He explained that the bill covered several subjects, and was the result of the deliberations of the Municipal committee during the session of 1901, as well as the present session. There were some important provisions in the bill—among them one dealing with the reclamation of James bay flats—which shou!' be pussed at this session, and he hoped the House would give it careful consideration.

tion.
The second reading was adopted.

The second reading was adopted.

STEEL RAILS.

Mr. Garden moved the second reading of his bill to Encourage the Manufacture of Steel Rails in Canada. He dwelt upon the importance of iron and steel manfacture and the exceptionally favorable natural advantages possessed by British Columbia as a field for the industry, her vast coal measures and immense deposits of iron ore, situated as they were on the sea coast, affording the greatest advantages of any country in the world. The Dominion and Ontario governments had bonussed the production of iron and steel and British Columbia might profitably follow the example, but his bill only provided that railways receiving government aid should be compelled to use iron and steel of Canadian manufacture. (Auplause.) He felt confident the bill would commend itself to the favorable consideration of the House.

The second reading was adopted.

MEDICAL ACT.

Mr. Gilmour moved the second reading of a bill to amend the Medical Act. The bill is to prevent candidates for office in the Medical society from acting as registrar at the election. Mr. Garden supported the bill. Mr. Hawthornthwaite moved the

MEDICAL ACT.

nt of the debate. MINE SIGNAL CODES. MINE SIGNAL CODES.

Mr. Curtis moved the second reading of a bill to amend the Inspection of Metalliferous Mines Act, which provides for the repeal of the mine signal code adopted last year. He claimed the code was too complicated and was not workable. He did not believe it was in use in a single mine in the province, the mine owners risking the penalties for non-compliance with the law rather than be compelled to use it. He argued that mine owners were just as anxious to protect the workmen from accident as the men themselves were to avoid injury. The present signal code was a hardship to mine owners, and it was the duty of the government to repeal it.

Mr. MeBride moved the adjournment of the debate.

FIRST READINGS.

FIRST READINGS.

The following bills were introduced and rend a first time:

Mr. Martin—To amend the Investment and Loan Societies Act.

Hon. Mr. Eberts—To amend the Evidence Act.

FISHERIES ACT.

A message was received from His Honor the Lieutenant-Governor trans-niting a bill to amend the Fisheries Ac-consideration of which was fixed for to

morrow.

The House adjourned at 6 o'clock until 8:30 p.m.

NIGHT SITTING. Mr. Speaker took the chair at 9 p. m. Hon, Mr. Prentice moved that the House proceed with the orders of the

want, while the owner of \$100,000 worth all in one ward would only have one vote.

Mr. Gilmour also opposed the amendment, arguing on the same lines as Mr. Oliver. He did not believe in the ward system.

Mr. Hall said there was no cause for changing the law. It would be time enough to adopt the change when the people demanded it.

Mr. Houston pointed out that no one in Victoria had objected to the change, Mr. McPhillips said the people did not know what was going on.

Mr. Houston—"Neither do some members of this House." (Laughter.)

Hon. Mr. Eberts, speaking of the legal aspect of the case, said Mr. McPhillips' amendment was necessary in order to agree with the last amendment adopted. Mr. Kidd also supported the amendment.

Mr. McPhillins' amendment was de-

ment. Mr. McPhillips' amendment was defented.

Mr. Houston moved the adjournment of the debate.

IJEGAL PROFESSIONS.

The House resumed consideration of Mr. Martin's bill to amend the Legal Professions' Act, in committee of the whole, Mr. Mounce in the chair. Mr. McPhillips said he had an amendment to the bill, which would appear on tomorrow's order paper, and he would ask that the committee rise and report. This was agreed to, and the House adjourned at 10:50 p. m.

live stock departments expert judges atfurnished by the government to all fairs
asking for them.

This system are tried last year, was
found to give eminent satisfaction, the
public judging and giving of reasons upon the many points to be considered in
deciding the excellence of an animal always drawing large crowds to the paddock, where this work was carried on.
In furtherance of this idea, too, a school
for judges was held last New Year's at
the big Guelph farm, at which some 250
farmers, both old and young, gathered,
and the work done there is already showing much fruit in the improved selections of the stock on their own farms
and neighborhood.

United States Federal Officials How These Institutions are Do-Former Foes Enjoy Visit to Victoria.

Director of Washington Bureau Practical Demonstrations of of Engraving and Secret Service Officers Here.

A little party of United States tourists registered at the Dominion hotel yesterday and spent the day doing the lions of Victoria. It consisted of W. M. Meredith, director of the Bureau of Engraving and Printing at Washington, his daughter in law, Mrs. dw. L. Meredith, whose husband the late Chief of Police in Senttle was assassinated here about a year ago, B. W. Bell head of the U. S. secret service for the North Western States and Mrs. Bell together with her daughter, Mrs. Robt. Culberson, wife of a prominent Seattle lawyer and a brother of Senator Culberson, of Texas, who was formerly Governor of that Lone Star State.

Capt. Bell, who about 18 months ago was transferred from Texas to his present position, is an old Confederate soldier, who first met his present traveling companion down at New Hope church in Sherman's famous Georgia campaign. At that time Capt. Meredith wore the Union blue and held a captain's commission in General Lew Wallace's brigade, having command of a company in the Olio regiment, of which Benjamin Harrison, afterwards president of the United States, was colonel.

Mr. Bell is now head of the secret service work in Washington. Oregon.

Speaking with a representative of the Colonist last night, Supt. G. C. Creelman, the provincial official in Ontario, whose services are largely devoted to the fall fairs, said that a great change had recently come over those well known old institutions. For many years they had been dwindling down to mere horse racing meetings, at which the fast horse people entered some old ringer and taught the farmer that his horse was not so fast after all. This sort of thing was thought to be more interesting than a cow, but the people had too much of it, and so the fairs suffered. Now, however, they seem to have imbued new life, and the fast horse being relegated to the shed, are doing excellent work of an educational sort. One of these features is the butter-making contest in which before the crowd the farmer's sons and daughters follow out the whole process from the milking of the cows to the making and moulding of the golden pats of fresh butter. Practical demonstration is also made of the proper grading, and packing of fruit, while in the live stock departments expert judges are Turnished by the government to all fairs asking for them.

Harrison, afterwards president of the United States, was colonel.

Mr. Bell is now head of the secret service work in Washington, Oregon, Idaho and Montana, and takes a keen interest in all sorts of counterfeit money. At present he says very little of that sort of thing seems to be going possibly a joint result of the severity of the judges, and of the watchfulness of the force. A short time ago a raid at Tekon in Western Washington, resulted in the capture of two would-be minters, and some \$150 of the queer. The coins were plated fives and tens, but Contes and Warren, who had gone into their manufacture are now serving sentences of five and seven years respectively.

Capt. Bell says that but little counterfeit Canadian money is ever seen there, since his coming to Scattle, but one lead four-bit Canadian having been reported at his office.

Mr. Mercdith's work beings him in

Mr. Spenker took the choice of the House proceed with the orders of the House proceed with the orders of the day.

On the report on Mr. Oliver's bill to amend the Municipal Election Act, Mr. Martin objected to the provision that non-resident property holders should have no vote for Mayor or Aldermen. He declared such a law was unheard of in any pert of the world.

Mr. Houston said the law was general in the United States.

Mr. Martin strongly urged the injustice of debarring non-resident owners of real estate from voting in civic elections. Mr. McPhillips moved to strike out section 2, as he saw no occasion for amending the law as it now stood.

Mr. Houston was surprised to see Mr. McPhillips hanging on to Mr. Martin's coat tails. Mr. McPhillips had a manicer, he held this office of dimending every bill which came before the House. The act as it stood was very ambiguous, and called for amendment. He held that because a man owned property in two or more than one in municipal elections, a man owned property in two or more than one constituency in provincial elections.

Mr. Green also opposed Mr. McPhillips in McMerhillips amendment.

Mr. Green also opposed Mr. McPhillips in two or more than one constituency in provincial elections.

Mr. Hawthornthwaite hoped the amendment would be negatived. The principle of one man one vote in alignation of the bill had been very fully discussed, and it should not be tampered with a strike or the principle of the bill had been very fully discussed, and it should not be tampered with a principle of the bill had been very fully discussed, and it should not be tampered with a principle of the bill had been very fully discussed, and it should not be tampered with the principle of the bill had been very fully discussed, and it should not be tampered with the principle of the bill had been very fully discussed, and it should not be tampered with the principle of the bill had been very fully discussed, and it should not be tampered with the principle of the bill had been very fully dis
